四象

01 THE PROPOSAL

A resort where every moment of the stay adapts to each guest's constitution.

Not one more spa — we install a 'constitution lifestyle' that runs through rooms, meals, sleep, scent and clothing.

01

Method

Type-specific protocols that run from constitution assessment to spa, food, sleep, scent, movement and clothing (working title: Sasang Constitution Method)

02

People

Training and certification for constitution wellness consultants and constitution spa therapists

03

Place

Flagship No. 1, VIGO Yeosu → Texas K-Town → partner properties

02 WHY NOW

Guests no longer buy 'what is good';
they buy 'what is right for me'.

For global guests already drawn to Korea through K-food and K-beauty, the next K-content is K-Wellness.

03 A PROVEN MODEL

A precedent: a global wellness destination built on one idea — constitution.

India's Ayurveda made constitution (dosha) a resort experience and opened a global market. We learn from its structure.

Personalization rooted in constitution

Constitution determines meals, treatments and the daily schedule

Residential programs

A purpose-driven journey of several days, not a day visit

Replicable through people and standards

Certified therapists and facility quality grades (Kerala's Ayur Silver, Gold and Diamond)

Chopra (programs inside a resort) · Ananda (consultation before, during and after the stay) · Kamalaya (tailored stay programs) · SHA (personal programs built on its own method)

04 THE SASANG LANGUAGE

Korea has Lee Je-ma's Sasang medicine (Donguisusebowon, 1894).

Four constitutions ×
organ-strength balance
(Jangbu daeso)

A language that reads the body
through the relative strength of
the liver, lungs, spleen and
kidneys

Temperament
(seongjeong)

Reads not only the body but
the texture of the mind →
meditation, relationship and
leadership programs

*Eumyang hwapyeong
jiin* — the person in
yin-yang balance

The balanced person every
type aims to become — the
brand's philosophy in one line

The specificity of food
(*sik*)

Ingredients, teas and recipes by
type are already codified, ready
to become F&B offerings
